SATURDAY AND EVENING CLASSES

SAMUEL H. DERICKSON, *Director*

GENERAL STATEMENT

THE courses offered in extension are, for the most part, intended primarily for those engaged in teaching. However, all other qualified persons will be admitted to these classes. All courses will be taught by members of the College Faculty, and will be of college grade. The credits earned by High or Normal School graduates in these courses will be counted by Lebanon Valley College towards its Baccalaureate degrees. A certificate will be issued to persons who are not graduates of a standard High School or its equivalent, provided the work is satisfactorily completed.

EXPENSES

A fee of \$1.00 will be charged for matriculation and registration. The tuition charge for extension courses will be \$7.00 for each point, a point being a semester hour. For example, the charge for matriculation and registration in courses leading to eight points credit would be \$57.00. This is approximately the regular fee for tuition in the college. Fees for the first term are due and payable on or before October 12 and for the second term on or before February 8. Remittances should be made to Lebanon Valley College and may be sent by mail to Agent of Finance Committee.

DESCRIPTION OF COURSES

ECONOMICS

E-54. Modern Economic Society. Two hours. Throughout the year.

The rapid development of economic life compels a constant re-statement of Economics. The course will deal with the following: the control of economic activity, basic characteristics of the existing economic order, the operation of the existing economic order, speculative production, machine industry, the organization of labor, the determination of price under competition, cost of production and competitive price, changes in demand and price, monopoly, public authority as a determinant of price, the business cycle, the position of the consumer, international economic policies. The course is not a repetition of previous courses. Text by Slichter.

EDUCATION

E-84. Educational and Mental Tests. Two hours. Throughout the year.

This course aims to acquaint the student with the standardized achievement and mental tests. The work of the first semester will be given to a study of available educational tests and scales; technique of administering and scoring tests; methods of tabulating and interpreting results; use of results in diagnosis, classification and guidance. The second semester will deal with mental tests. History of mental tests; types of mental tests; use and results of tests in school. Methods of conducting tests are discussed and demonstrated. Text books, assigned readings, and test materials. Laboratory fee of one dollar each semester. Four semester hours' credit.

ENGLISH

DR. WALLACE

E-24. Survey of English Literature (English 26). Two hours. Throughout the year. This course is required of all College Sophomores.

DR. STRUBLE

E-522. American Prose Masters. Two semester hours' credit. First semester.

E-132. Contemporary Drama. European and American Drama since 1890. Two hours. Second semester.

GERMAN

E-14. Second Year German. Two hours per week. Throughout the year.

HISTORY

E-84. Modern World History. Two hours. Throughout the year.

This course will attempt to follow the developments of the current world situation with excursions into the past. Lectures, reports, discussion. Texts: Current History Magazine and the New York Times.

SPECIAL WORK AT THE COLLEGE

Begins September 23rd, 8:00 A. M.

BIBLE

Character Building. Two hours. First semester.

The purpose of the course is to survey the basic principles, theories and methods in character building in the public school system.

The Church School. Two hours. Second semester.

A study of the principles, problems and methods in the organization and administration of the Sunday School, Church Vacation School and Week-Day School of Religion; special emphasis will be given to the contribution these agencies make to character building.

Both these courses will be accepted as credits meeting the regular Bible requirements for the different degrees.

CHEMISTRY

(Course to be arranged)

EDUCATION

13. **General Psychology.** Two hours. Throughout year.

This course aims to acquaint the student with the psychological standpoint and with the fundamental psychological principles. It includes a study of such topics as native tendencies, acquired tendencies, emotions, imagination, memory and reasoning. Laboratory fee of one dollar each semester. Four semester hours' credit.

FRENCH

Second Year French. Three hours throughout year. Six semester hours' credit.

GERMAN

First Year German. Three hours throughout year. Six semester hours' credit.

HISTORY

Pennsylvania Biographies. Lectures, reports, discussion.
